  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen) :

[10 × 2 = 20]

- a) Define gangrene.
- b) Ducreyi ulcer.
- c) Acute Paronychia.
- d) Renal lump.
- e) Murphy's triad.
- f) Grades of haemorrhoids.
- g) Define dysphagia.
- h) 4 causes for haematuria.
- i) Arsenic alb in carbuncle.
- j) Veratrum in hypovolaemic shock.
- k) Causticum in burns.
- l) Chelidonium in cholelithiasis.
- m) Berberis in renal calculi.
- n) Mag-phos in appendicitis.
- o) Silicea in fistula in ano.

2. Write short answer (any four out of six) :

- a) Pyogenic abscess.
- b) Cerebral concussion.
- c) Diabetic gangrene.
- d) Sliding hernia.
- e) Cystitis.
- f) Gastric ulcer.

3. Write short answer (any four out of six) :

[4 × 5 = 20]

- a) Iodum in breast Neoplasia.
- b) Calendula in wounds.
- c) Calc flour in fibroadenoma of breast.
- d) Bismuth in Gastric ulcer.
- e) Colocynth in acute abdomen.
- f) Thuja in Benign enlargement of prostate.

4. Long answer question (any two out of four) :

[2 × 10 = 20]

- a) Classify ulcer. Give indication of merc.sol, fluoric acid, borax in ulcer.
- b) Define burns. Describe its types. Give indication of aconite, calendula in burns.
- c) Enumerate causes of bleeding per rectum. Give indications of aloe, haemammelis in haemorrhoids.
- d) Describe aetiology, clinical features of duodenal ulcer and give indication of bismuth, phosphorus, kali-bich for the same.

Long answer question (any one from Q. No. 5, 6 and 7) :

5. Define abscess. Classify them and describe in detail pyogenic abscess. Give indication of hepar sulph, silicea, bacillinum in pyogenic abscess.

[1 × 20 = 20]

6. Describe aetiology, clinical features, complications of Renal calculi. Give indication of sarsaparilla, baerberis, lycopodium for the same. [1 × 20 = 20]

7. Define cholecystitis. Classify it and describe in detail "chronic cholecystitis" give indication of hydrasts, crotalus horridus, chelidonium majus for the same.

[1 × 20 = 20]

**Third BHMS (2015) Examination, Summer  
(Phase - III : All Other Remaining UG/PG Courses) - 2020**

**SURGERY - II  
(ENT Ophthalmology, Orthopaedics, Dentistry & Homoeopathic  
Therapeutics)**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen):

[10 × 2 = 20]

- a) Define Rhinitis Sicca.
- b) Name the gland producing Wax in ear.
- c) What is Pathological fracture.
- d) Define Kyphosis.
- e) Define Myopia.
- f) Define Trachoma.
- g) Define Dental cyst.
- h) Define Epulis.
- i) Name 2 Homoeopathic drugs for Painless Hoarseness of voice.
- j) Name 2 homoeopathic medicines for chronic cholesteatomatous variety of suppurative otitis media.

- k) Enumerate 2 homoeopathic medicines for sprain with their modalities.
- l) Name 2 Homoeopathic medicines for non union of fracture.
- m) Name 2 Homoeopathic medicines for external Hordeolum with one key note symptom of each.
- n) Name 2 Homoeopathic medicines for Blindness with the cause for blindness in each.
- o) Name 4 Homoeopathic medicines for Pyorrhoea.

2. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Deviated Nasal Septum.
- b) Enumerate 10 Differential diagnosis for Deafness.
- c) Frozen shoulder.
- d) Write difference between Smith's and Colles' fracture.
- e) Blepharitis.
- f) Write Myopia in detail.

3. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Enumerate at least 5 causes of epistaxis and write a name of homoeopathic medicine with two indications for each cause.
- b) Write indications of Baryta carb and Phytolacca in Tonsillar affection.
- c) Write management of fracture with indications of two suitable Homoeopathic medicines.
- d) Modalities and clinicals of Rhus Tox and Bryonia in Musculoskeletal affection.
- e) Write Clinicals and characteristic features for Pulsatilla in eye affection.
- f) Indications for Merc. sol. and Kreosotum in toothache.

4. Long answer question (any two out of four): [2 × 10 = 20]
- a) 15 year old child came with Dysphagia. Enumerate 5 differential diagnosis and Write Acute Tonsillitis in detail with indications of 2 homeopathic medicines.
  - b) Define Rhinitis. Write Atrophic Rhinitis with its pathophysiology and clinical features and indication of 2 homoeopathic drugs for management of same.
  - c) What do you mean by Sciatica? How will you elicit it with clinical examination and write its causes and management with indications of suitable 2 homeopathic drugs.
  - d) Define Glaucoma, write its classification and write Close Angle Glaucoma in detail with indication of 2 homeopathic drugs.

**Long answer question (any one from Q. No. 5, 6 and 7):**

5. Define Acute suppurative otitis media, causation, stages with clinical features and management with suitable 1 homeopathic drug for each stage. [1 × 20 = 20]
6. Define Fracture, its types, clinical features, complications, conservative management and indications of 4 homeopathic medicines for the same. [1 × 20 = 20]
7. 65 year old women came with gradual onset haziness of vision. Write probable Differential diagnosis And write Cataract, its types, clinical features, and difference between mature and immature cataract with indications for 4 homeopathic drugs. [1 × 20 = 20]

**Third B.H.M.S. (2015) Examination, Summer  
(Phase - III : All Other Remaining UG/PG Courses) - 2020  
GYNAECOLOGY & HOMOEOPATHIC THERAPEUTICS - I**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever** necessary.

As it is only for the placement sake, the distribution has been done.

1. Write short answer (**any ten** out of fifteen):

[10 × 2 = 20]

- a) Follicle stimulating hormone.
- b) Enumerate functions of Progesterone hormone.
- c) Uterus Didelphys.
- d) Indications of Mag phos in Dysmenorrhoea.
- e) Define adrenarche and thelarche.
- f) Borax in Leucorrhoea.
- g) In vitro fertilization.
- h) Define primary and secondary infertility.
- i) Indications of Trillium pendulum in Fibroid uterus.
- j) Contraindications of oral contraceptive pills.

- k) Hydrastis in cervical erosion.
- l) Normal sperm count.
- m) Indications of Caladium in Pruritus vulvae.
- n) Name 4 remedies for bright red bleeding in menorrhagia.
- o) Benefits of male condom.

2. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Spasmodic Dysmenorrhoea.
- b) Trichomoniasis.
- c) Secondary changes in fibroid uterus.
- d) Types and indications of Hysterectomy.
- e) Vasectomy.
- f) Dyspareunia.

3. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Indications of Lycopodium & Pulsatilla in Puberty.
- b) Merc sol and iodum in pelvic inflammatory disease.
- c) Indications of Agnus castus & Lycopodium in Impotency.
- d) Indications of 2 remedies in cervical erosion.
- e) Indications of Belladonna and Conium in breast disorders.
- f) Indications of 2 remedies for Uterine polyp.

4. Long answer question (any two out of four): [2 × 10 = 20]
- a) Define polycystic ovarian syndrome, write its clinical features, investigations and complications. Give indications of Iodum and Medorrhinum in PCOS.
  - b) Define genital fistula, write its types and give indications of Silicea, Arnica and Hypericum in genital injuries.
  - c) Define menopause and climaxis, write clinical features of menopause. Give indications of Lachesis and Graphites in menopause.
  - d) Write aetiology of Prolapse of uterus, what are its types, complications and give indications of 2 homoeopathic remedies for the same.

**Long answer question (any one from Q. No. 5, 6 and 7):**

5. Define infertility, give the causes and investigations of female infertility, write the indications of Platina, Natrum carb and Sepia for the same. [1 × 20 = 20]
6. Define contraception, write the various types of contraception, describe Copper T in detail. [1 × 20 = 20]
7. Describe stages of Ca Cervix, what are its causes, investigations and complications. Write indications of Nitric acid and Argentum nitricum for the same. [1 × 20 = 20]

**Third B.H.M.S. (2015) Examination, Summer  
(Phase - III : All Other Remaining UG/PG Courses) - 2020  
OBSTETRICS, INFANT CARE AND HOMOEOPATHIC  
THERAPEUTICS - II**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**

  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen): [10 × 2 = 20]

- a) Lochia.
- b) Morula.
- c) Enumerate 4 signs of pregnancy in first trimester.
- d) Colostrum.
- e) Indications of Phytolaca in mastitis.
- f) Indications of Sabina in ante partum haemorrhage.
- g) Sepia in Abortion.
- h) Enumerate 4 structural abnormalities of the placenta.
- i) Alumina in anaemia during pregnancy.
- j) Intrauterine growth retardation.

- k) Ant tart in Asphyxia neonatorum.
- l) Define prolonged labour.
- m) Kernicterus.
- n) Indications of Phosphorus in hyperemesis gravidarum.
- o) Human chorionic gonadotropin hormone.

2. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) High risk pregnancy.
- b) Diagnosis of Twin pregnancy.
- c) Medical termination of pregnancy in first trimester.
- d) Retained Placenta.
- e) Clinical features of an healthy newborn infant.
- f) Complications of anaemia during pregnancy.

3. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Role of Phosphorus & Ipecac in Hyperemesis gravidarum.
- b) Role of Kali carb & Sepia in backache during pregnancy.
- c) Role of Sepia & Sabina in Abortion.
- d) Role of Carbo veg & Arnica in varicose veins during pregnancy.
- e) Cactus and Gelsemium in heart disease during pregnancy.
- f) Role of Arg nit & Pulsatilla in Ophthalmia neonatorum.

4. Long answer question (any two out of four): [2 × 10 = 20]
- a) Define Postpartum haemorrhage, write its types and complications. Give indications of 2 homoeopathic remedies for the same.
  - b) Define abruptio placenta, write its clinical features, complications and management with 2 homoeopathic remedies.
  - c) Write complications of Anaemia during pregnancy with indications of 2 homoeopathic remedies.
  - d) Define abortion, write its classification and write a note on missed abortion.

Long answer question (any one from Q. No. 5, 6 and 7):

5. Define vesicular mole, write its classification, clinical features, investigations and complications. Write the role of homoeopathy with the help of 2 remedies in managing a case of vesicular mole. [1 × 20 = 20]
6. Define Obstructed labour, what are its causes, write a note on partograph and write indications of 2 homoeopathic remedies in managing a case of obstructed labour. [1 × 20 = 20]
7. Define aetiology, clinical features of Puerperal pyrexia with indications of 3 homoeopathic remedies in detail. [1 × 20 = 20]

**Third B.H.M.S. (2015) Examination, Summer**  
**(Phase - III : All Other Remaining UG/PG Courses) - 2020**  
**HOMOEOPATHIC MATERIA MEDICA**

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.*

1. Write short answer (any ten out of fifteen):

[10 × 2 = 20]

- a) Write two delusions of Thuja Occidentalis.
- b) ✓ Write vomiting of Bismuth.
- c) ✓ Write two guiding symptom of Benzoic acid.
- d) ✓ Write two indications of Ruta in injury.
- e) Write two Key note symptoms of Kreosotum.
- f) ✓ Write two Key note Modalities of Colocynth.
- g) ✓ Write two key note symptoms of Murex.
- h) Two biochemic indications of Cal.Phos.
- i) Write two indications of Bellis per. in Injury.
- j) ✓ Write two key note symptoms of Opium.

- ☒ k) Write two key note symptoms of Asafoetida.
- l) Write two guiding symptoms of Apocynum.
- ☒ m) Write Constitution of Aethusa Child.
- ☒ n) Write two indications of Berberis Vulgaris related to urinary complaints.
- ☒ o) Write Thirst of Ipecac.

2. Write short answer (any four out of six):

[4 × 5 = 20]

- a) Bryonia Alba - General Modalities.
- b) Chamomilla - Child.
- ☒ c) Ledum Pal - Rheumatic Complaints.
- ☒ d) Drosera - Respiratory Complaints.
- e) Aloe Soc - Diarrhoea.
- ☒ f) Lycopodium - Mental Symptoms.

3. Write short answer (any four out of six):

[4 × 5 = 20]

- a) Chelidonium - Liver Complaints.
- b) Digitalis - Heart Complaints.
- c) Podophyllum - Diarrhoea.
- d) Graphites - Skin Complaints.
- e) Bufo Rana - Epilepsy.
- ☒ f) Lachesis - Mental Symptoms.

4. Long answer questions (any two out of four): [2 × 10 = 20]
- a) Compare & Contrast Between Apis Mellifica & Cantharis in Urinary Complaints.
  - b) Compare & Contrast Between Natrum Mur & Ignatia Female.
  - c) Write in detail guiding symptoms of Argentum Nitricum.
  - d) Write in detail guiding symptoms of Platina.

**Long answer questions (any one from Q. No. 5, 6 and 7):**

5. Write in detail Drug picture of Belladonna. [1 × 20 = 20]
6. Write Group symptoms of Acid Group and write Constitution, Mental, Guiding symptoms and Modalities of Nitric Acid. [1 × 20 = 20]
7. Write in detail Drug picture of Arsenicum Album. [1 × 20 = 20]

**Third BHMS (2015) Examination, Summer  
(Phase - III : All Other Remaining UG/PG Courses) - 2020  
ORGANON OF MEDICINE**

1. Write short answer (**any ten** out of fifteen):

[10 × 2 = 20]

- a) Define drug proving.
- b) Define objective symptoms.
- c) Define one sided disease.
- d) What is Genus epidemicus.
- e) Write four sure signs of improvement.
- f) Write the four auxiliary measures mentioned in 6th edition of Organon.
- g) Define Idiosyncrasy.
- h) Define intermittent diseases.
- i) Define Susceptibility.
- j) Write Dr. Kent's 11th observation.

- k) Mention four types of second Prescription.
- l) Define drug potential.
- m) What is status Quo.
- n) What is Mongrel sect.
- o) Define Latent Psora.

2. Write short answer (any four out of six):

[4 × 5 = 20]

- a) Day book
- b) Precautions followed by prover during drug proving
- c) Diet and Regimen in acute diseases
- d) Indisposition
- e) Specific medicine
- f) Mesmerism

3. Write short answer (any four out of six):

[4 × 5 = 20]

- a) The sick
- b) Individualization.
- c) Killer's aggravation.
- d) Temperament.
- e) Law of quantity and dose.
- f) Repetition of Dose

4. Long answer question (any two out of four):
- a) Describe the action of medicine in detail.
  - b) Explain the highest Ideals of Cure.
  - c) Explain second prescription in detail according to Dr. Kent.
  - d) Describe palliation & suppression in detail.

Long answer question (any one from Q. No. 5, 6 and 7):

5. Describe in detail the Hahnemannian classification of diseases. [1 × 20 = 20]
6. Explain, how Boenninghausen elucidated characteristic symptoms with reference to aph. 153, in the search of Homoeopathic remedy. [1 × 20 = 20]
7. Define mental diseases. What are the types & describe its Homoeopathic management? [1 × 20 = 20]

**Third B.H.M.S. (2015) Examination, Summer (Phase - II) 2019  
GENERAL SURGERY AND HOMOEOPATHIC THERAPEUTICS-I**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.

1. Write short answer (**any ten** out of fifteen):

[10 × 2 = 20]

- a) Define ulcer.
- b) Milroy's disease.
- c) Define regeneration.
- d) Cullens sign.
- e) Calculous anuria.
- f) Budd-chiari syndrome.
- g) Define hydrocoele.
- h) 4 causes for bleeding per rectum.
- i) Arsenic alb in varicose veins.
- j) Iodum in goitre.
- k) Cantharis in UTI.
- l) Mag phos in appendicitis.
- m) Aesculus in haemorrhoids.
- n) 2 drugs for haematuria.
- o) Cantharis in cystitis.

2. Write short answer (any four out of six). [4 × 5 = 20]
- complications of blood transfusion.
  - cold abscess.
  - cavernous haemangioma.
  - fistula in ano.
  - hiatus hernia.
  - hypospadias.
3. Write short answer (any four out of six): [4 × 5 = 20]
- carbo-veg in gangrene.
  - graphites in furuncle.
  - calc flour in fibroadenoma.
  - gelsemium in Benign enlargement of prostate.
  - phosphorus in appendicitis.
  - bismuth in gastric ulcer.
4. Long answer question (any two out of four): [2 × 10 = 20]
- classify wounds. give indication of hypericum, calendula, arnica in wounds.
  - classify shock and give indication of camphor carbo-veg, veratrum alb in shock.
  - describe aetiology, clinical features, of haemorrhoids and give indication of Aesculus, ratanhia, nitric acid for the same.
  - describe clinical features of Benign enlargement of prostate and give indication of conium and baryta carb for the same.
- Long answer question (any one from Q. No. 5, 6 and 7):
5. Define gangrene. Describe its types, and describe in detail Diabetic gangrene. Give indication of Carboveg, Bromium, Arsenic album for the same. [1 × 20 = 20]
6. Describe aetiology, clinical features, complications of cholelithiasis. Give indications of chelidonium nuxvomica for the same. [1 × 20 = 20]
7. Describe aetiology types, clinical features of intestinal obstruction. Give indications of plumbum, diascoria, mag-phos for the same. [1 × 20 = 20]

Third B.H.M.S. (2015) Examination, Summer (Phase - II) 2019  
 SURGERY-II ENT, OPHTHALMOLOGY, ORTHOPAEDICS,  
 DENTISTRY & HOMOEOPATHIC THERAPEUTICS

1. Write short answer (**any ten** out of fifteen):

[10 × 2 = 20]

- a) Define Regeneration.
- b) Define curling's ulcer.
- c) Define Reactionary hemorrhages.
- d) Explain Penetrating wound.
- e) Define Carbuncle.
- f) Define Gangrene.
- g) Define Lipoma.
- h) Define Sinus.
- i) Define Toxic Goitre.
- j) Explain Pyaemic Abscess.
- k) Define Aphakia.
- l) Name the Errors of Refraction.
- m) Define-Style.
- n) Write down 2 causes for Blindness.
- o) Define-Hypopyon.

2. Write short answer (**any four** out of six). [4 × 5 = 20]
- Explain Difference between Benign and Malignant tumors.
  - Explain Diabetic Gangrene.
  - Explain Complications of blood transfusion.
  - Explain Tubercular Lymphadenitis.
  - Explain chalazion.
  - Explain Acute Dacrocystitis.
3. Write short answer (**any four** out of six): [4 × 5 = 20]
- Explain septic shock.
  - Explain Venous ulcer.
  - Define cyst and give its classification.
  - Explain Hodgkin's Lymphoma.
  - Explain Hypermetropia.
  - Explain Ophthalmia neonatrum.
4. Long answer question (**any two** out of four): [2 × 10 = 20]
- Define Haemorrhages, Classify them and describe in detail.
  - Define wound, Classify wound and give in describe in detail factors affecting wound healing.
  - Write in detail Clinical features of Arterial Insufficiency.
  - Define Conjunctivitis and Describe in detail Mucopurulent Conjunctivitis.

**Long answer question (any one from Q. No. 5, 6 and 7):**

- Define Ulcer classify them describe various Edges of an ulcer and compare between Healing and Non Healing Ulcer. [1 × 20 = 20]
- Define Burns, write its aetiopathogenesis, Clinical features and describe importance of Rule of Nine in management of Burns. [1 × 20 = 20]
- Define glaucoma and describe in detail Chronic simple Glaucoma. [1 × 20 = 20]

**Third B.H.M.S. (New) Examination, Summer (Phase - II) 2019  
SURGERY AND HOMOEOPATHIC THERAPEUTICS - II**

Total Duration : 3 Hours

Total Marks : 100

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.

1. Write short answer (any ten out of fifteen):

[10 × 2 = 20]

- a) Write down 2 causes for Dysphagia.
- b) Explain pigment stones.
- c) Explain Murphy's Triad.
- d) Explain Rebound tenderness.
- e) Define Amazia. *goiter*
- f) Define Thyroglossal Cyst.
- g) Define Pulpitis.
- h) Write down 2 causes of Bleeding gums.
- i) Define Colles fracture.
- j) Write down 2 orthopedic causes for Backache.
- ☒ k) Define Osteoma.
- ☒ l) Define otomycosis.
- m) Write down 2 causes for Otorrhoea.
- n) Explain little's area.
- o) Write down two causes of vertigo.

2. Write short answer (**any four** out of six).

[4 × 5 = 20]

- a) Fistula in Ano.
- b) Umbilical Hernia.
- c) Differential diagnosis for discharge from nipple.
- d) Indications for Dental Extraction.
- e) Explain Complications of fracture.
- f) Explain Otitis externa.

3. Write short answer (**any four** out of six):

[4 × 5 = 20]

- a) Explain Meckel's Diverticulum.
- b) Explain toxic Goitre.
- c) Explain Oral Hygiene.
- d) Explain Green stick Fracture.
- e) Explain septal haematoma and septal abscess.
- f) Explain Acute Epiglottitis.

4. Long answer question (**any two** out of four):

[2 × 10 = 20]

- a) Describe in detail about Benign Enlargement of Prostate.
- b) Describe in detail types, complications and treatment of "Impacted Wisdom Tooth".
- c) Describe Cervical Spondylitis in detail.
- d) Discuss classification of Rhinitis and Describe in detail Chronic simple Rhinitis.

**Long answer question (any one from Q. No. 5, 6 and 7):**

5. Enumerate causes of Haematemesis and describe aetiology, clinical features and complications of Peptic Ulcer. [1 × 20 = 20]

6. Describe aetiopathogenesis, clinical features, differential diagnosis and treatment of Acute Osteomyelitis. [1 × 20 = 20]

7. Describe aetiopathogenesis, clinical features, differential diagnosis and indications and contraindications for tonsillectomy in Tonsillitis [1 × 20 = 20]

I. Write short answer (any ten out of fifteen):

[10 × 2 = 20]

- a) Define primigravida and primipara.
- b) Enumerate functions of fetal membranes.
- c) Define antepartum haemorrhage and post partum haemorrhage.
- d) Rooming in.
- e) Conjoined twins.
- f) Functions of placenta.
- g) Carneous mole.
- h) Complications of anaemia during pregnancy.
- i) Quickening.
- j) Lightning.
- k) Write the schedule of tetanus immunization in pregnancy.
- l) Write the dose of calcium during pregnancy and lactation.
- m) Advantages of breast feeding.
- n) Apgar score.
- o) Define prolonged labour.

04702A

[4 × 5 = 20]

2. Write short answer (any four out of six).

- a) Urine pregnancy test
- b) Intra uterine fetal death.
- c) Episiotomy.
- d) threatened abortion.
- e) Partograph.
- f) Breast feeding.

3. Write short answer (any four out of six):

[4 × 5 = 20]

- a) Subinvolution ~~not~~ uterus.
- b) Placenta previa.
- c) Oligohydramnios.
- d) Bishop's score.
- e) Fetal membranes.
- f) Convulsions in newborn.

4. Long answer question (any two out of four):

[2 × 10 = 20]

- a) Discuss diagnosis of pregnancy in detail.
- b) What are the causes of preterm labour? Write clinical features and complications of premature infant.
- c) Mechanism of normal delivery in detail.
- d) Explain Asphyxia neonatorum in detail.

Long answer question (any one from Q. No. 5, 6 and 7):

5. Define pre eclampsia, write its clinical features, investigations, complications and management in detail.

[1 × 20 = 20]

6. Discuss breech presentations and its management.

[1 × 20 = 20]

7. Define healthy newborn infant, write its clinical features and management in detail.

[1 × 20 = 20]
